

### #WEEK 3:

## STUDENTS TAKING ACTION!

Why are fish crying?

Unfortunately 3 weeks aren't enough to spread the #NoMorePlastic project...

**Aim:** Getting ready to BAN Single Use Plastic at school Community in Spain: Valencia, through French subject. Of course, it will continue throughout May & June and so on, when at the end of the academic course, all together: Educators, Teachers, Students with Families will share workshops about the importance of taking care of our Planet Earth

The impact didn't take too long to come!!!

“How ugly are those fish....”  
said the youngest passing by ...

Surely they are right: Do we want our Seas and Oceans as dirty as in  
this poster?...

# Solutions/Alternatives are proposed to avoid using Plastic daily

And in June, Students will present some workshops  
to recycle plastic. All the benefits will be sent to  
'Leprosy Health Centre' in Nalgonda - India

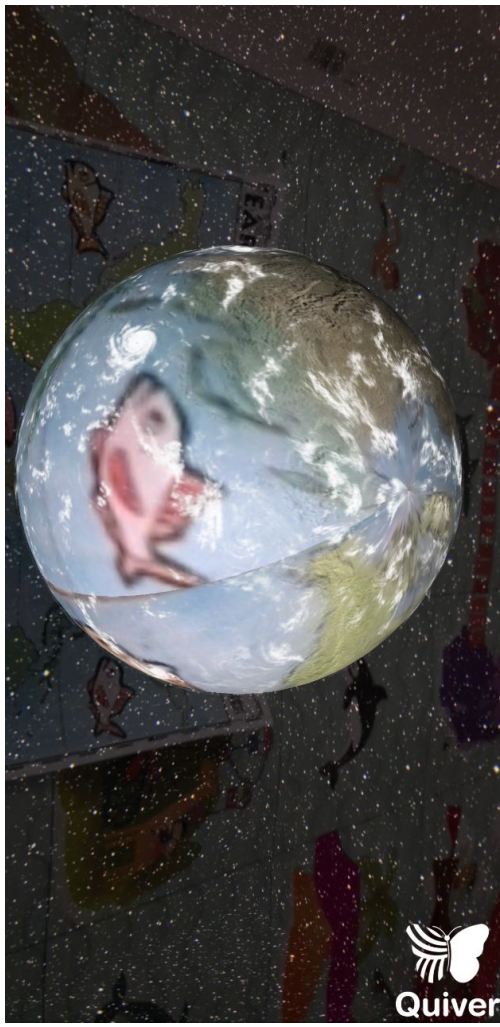

# Our video: NoMOrePlastic, Non au Plastique! ¡No al Plástico!
